

Below is a list of Bible Passages to choose from for your 10 minute Bible Talk to be presented at one of our future School of Preachers sessions.

In order to prevent comparison between two different participants, only one person may choose a specific passage.

The passages below have been chosen because they are straight forward and seem well suited to a 10 minute talk. Some are more straight forward than others. If you have a strong desire to do your talk based on a passage not listed below, please discuss your passage with Steve Adams.

As we believe the most common form of preaching should be expository preaching through a Bible Passage, topical sermons are not an option for these 10 minute talks.
